Sea Otter's Activity
Float with me on the sea

with artist
Georgie Manly

I swim across the sea with my otter pup on my belly.
The otter pup looks just like me.
Are we covering up our eyes?

Listen to my story at
<https://tinyurl.com/sea-otter>
then try this activity.

Do you think you are big or small?

What or who is bigger than you?

What or who is smaller than you?

Find something you can pretend to
be your otter pup and lie down.

Are you swimming across the sea together?

Where might you land?

What kind of adventure awaits you both?

Have a look around you, what other
things can sit on other things?

Choose things that you think might make a good pair,
it might be that they share something in common
such as colour, shape or texture.

What objects have you put together?

Can you create a scene using what is around you?

Now step back. Look at it from the ground, look at it from above.

Can you turn your scene into a drawing?

If you're drawing with your family,
choose a different angle to draw from.

What happens when you stick your drawings together?
