The Big Red Tower's Activity **Recreate me using objects in your home**

with artist
Sorrel Muggridge

I make an imposing sight in the sculpture park
next to the Sainsbury Centre.

I'm very tall and very red; I even have a red
flag near my top- can you see it?

Because I live outside you can come and
visit me even when the gallery is closed.

Find all the red objects you can in your home.

Build a tower of your own by stacking the objects.

If you can, try building it outside.

How does the red look against the other colours around you?

How tall can it be?

Is it wobbly?

How many different shaped objects can you use?

Are some objects easier to build with than others?

Why might that be?
