**Crouching Hare's Activity:
I'm poised to run and jump!**

Make a route or obstacle course for me
to explore your garden or home

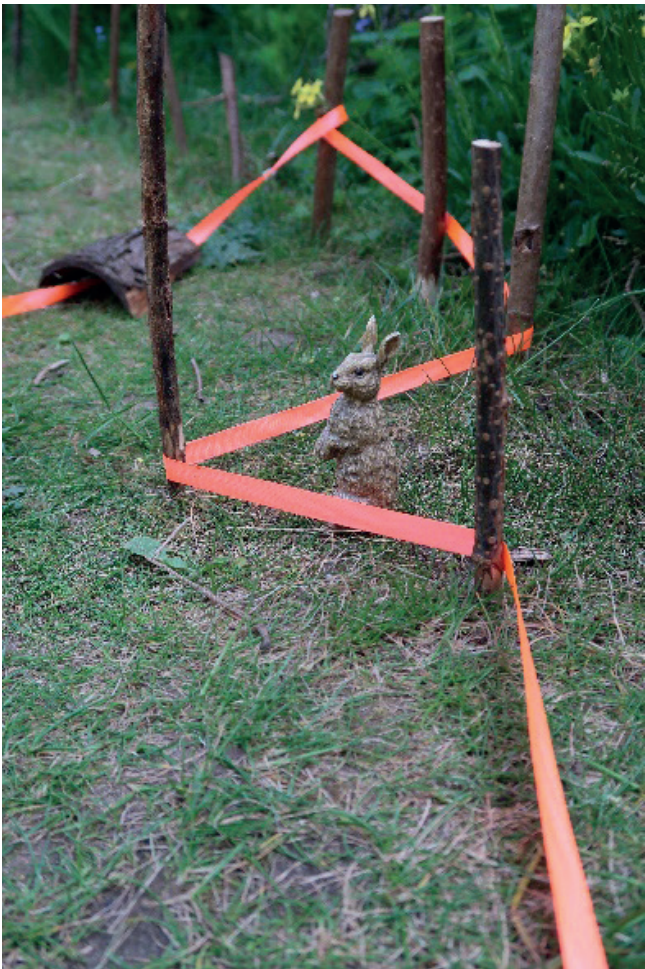

Using a 2 metre length of string, wool or ribbon
to mark a route for me to follow

Look for something to climb over
and something to go through

Find something to go over and something to go around

Can you include a slide, too?

Perhaps one of your smallest toy animals
might like to give it a try!

Imagine you are the size of an ant...
would your route be exciting?

How would it feel?

What would you see?
